Consultancy Title	Clinical psychologist supporting psychological activities for the Inclusion II-b Project
Location	Quang Ngai province
Contract duration	1 st April 2026 to 30 th September 2026
Project	Improving the quality of life of people with disabilities in provinces sprayed with Agent Orange (Inclusion IIb)

1. BACKGROUND

Catholic Relief Services (CRS) is an international non-government organization, operating in Vietnam since 1994. In partnership with the government and communities, CRS implements programs in 09 provinces/cities in Vietnam. The Vietnam Program has a diverse funding base in the sectors of Disabilities, Mine Action and Disaster Risk Reduction and Management, and Community-based Climate Change Adaptation.

With funding from the U.S. government, CRS is implementing the project "Supporting the improvement of the quality of life of people with disabilities in provinces severely affected by Agent Orange" in Gia Lai and Quang Ngai (Inclusion Project 2b) in collaboration with Humanity & Inclusion (HI) - the prime organization and CRS acts as a sub organization. The National Action Center for Toxic Chemicals and Environmental Treatment (NACCET) under the Ministry of National Defense serves as the project owner.

According to the 2025–2026 plan, the project will implement psychological support activities for people with disabilities and their caregivers in selected communes of Quang Ngai province. To effectively carry out these activities, CRS is seeking two experienced clinical psychologists to provide psychological support using Behavioral Activation therapy (BA). The specific scope of work is as follows:

2. OBJECTIVES

- Provide professional psychological support services to people with disabilities and their caregivers in project communes, helping them overcome psychological challenges, enhance mental well-being, and improve social adaptability.

- Strengthen the capacity of local staff in implementing psychological support models, aiming to build a sustainable community-based mental health support system in the future.

3. SCOPE OF WORK

The consultant will be responsible for implementing activities in alignment with the objectives and scope of work. Key tasks include, but are not limited to:

- ***Provide technical guidance and supervision to local staff implementing Behavioral Activation (BA) in psychosocial support for persons with disabilities and their caregivers.***
- + Direct supervision of psychosocial support sessions: Conduct three supervision sessions (depression and anxiety assessment, psychosocial assessment, BA1 and BA6) for persons with disabilities and their caregivers in selected communes in Quang Ngai Province, as assigned by the project. Provide timely feedback to local staff after each session, focusing on each client's progress and key techniques to note (both in-person and online). Complete technical supervision reports in accordance with the project's reporting template.

+ Remote technical support for local staff on BA 1–6: Organize meetings to provide technical support to local staff before they conduct BA 1–6 sessions with persons with disabilities and their caregivers; facilitate debriefing meetings after local staff complete these BA sessions.

4. DELIVERABLES AND TIMELINE

No	Scope of work	Activity	Output	Tentative working days	Tentative timeline
1	Provide technical supervision and guidance to local staff on implementing Behavioral Activation (BA) for psychosocial support for people with disabilities.
