

CONSULTANCY SERVICES

Provision of Rehabilitation Services for People with Disabilities

1. BACKGROUND

The International Center (formerly known as Vietnam Veterans of America Foundation -VVAf) is a humanitarian organization that has addressed the consequences of war through advocacy and service programs in Vietnam for the last three decades. As a co-founder of the International Campaign to Ban Landmines, IC-VVAf was awarded the Nobel Peace Prize in 1997. The International Center (IC) now focuses on disability support, landmine removal, and mental health programs.

Under the financial support of the United States Government for the Program of Enhancing the Quality of Life of Persons with Disabilities in heavily sprayed with Agent Orange provinces of Gia Lai and Quang Ngai (Inclusion 2b), as a sub-implementing partner, IC is responsible for implementing the Objective One of the project which is to expand the rehabilitation services to contribute to the Goal that to improve the quality of life of persons with disabilities in provinces heavily sprayed with Agent Orange, namely Gia Lai and Quang Ngai.

Three expected results include:

- Ensured accessibility and quality of multi-disciplinary rehabilitation services
- Improved rehabilitation system for the provinces
- Improved Governance of the rehabilitation service system

To achieve the abovementioned objectives, a wide range of activities will be implemented in the two project provinces and at the central level. Rehabilitation service provision follows the relevant steps: need assessment and prescription, service delivery, and outcome measurement. These steps are required to ensure that people with disabilities receive appropriate, high-quality, holistic rehabilitation services.

To supplement the effort of the Government to provide rehabilitation services to persons with disabilities in the provinces, IC's project plans on identifying private service providers that can support and deliver comprehensive rehab services to persons with disabilities including physical

therapy, occupational therapy, speech therapy, and non-construction-based home modifications to persons with disabilities, leading to improve functions of daily living activities for persons with disabilities in Gia Lai and Quang Ngai provinces.

IC is seeking individuals/firms to join our dynamic team in providing multidisciplinary rehabilitation services in the community. Selected providers will have the chance to participate in the training on multidisciplinary rehabilitation service provision organized by IC prior to the delivery of the rehab service, as part of the capacity building for the local private service providers in the areas of multidisciplinary rehab services.

2. DUTY STATION

- Duty Station: Gia Lai and Quang Ngai provinces.
- Duration of Assignment: from September to December 2026.

3. SCOPE OF WORK AND DELIVERABLES

The qualified individuals/ firms will carry out the following services:

● Scope of work:

- Collaborate and coordinate with local partners and IC to plan, prepare, and implement project activities in the fields.
- Provide multidisciplinary rehabilitation services for persons with disabilities at the selected project sites in Gia Lai and Quang Ngai provinces, including, but not limited to, needs assessment, development of individual intervention plans, provision of intervention services in accordance with the plans, and outcome measurement for people with disabilities in Gia Lai and Quang Ngai provinces.
- Provide services to non-construction home modification for persons with disabilities based on the need assessments;
- Comply with the project's procedures and instructions for providing rehabilitation services for people with disabilities in the assigned area.
