JOB ANNOUNCEMENT – SENIOR LAB OFFICER

The University of North Carolina in Vietnam is a research organization of the University of North Carolina at Chapel Hill, USA. We are conducting studies on new therapies for HIV and TB treatment and prevention as well as mental health interventions targeting key populations, including people living with HIV, TB patients, men who have sex with men, transgender women and people who inject drugs. We are in partnership with clinical trial networks of the US National Institute of Health (NIH) such as the HIV/AIDS Prevention Trial Network (HPTN) and Advancing Clinical Therapeutic Globally (ACTG). In order to expand our operations, we are now seeking a talented and dedicated individual to join our team as Senior Lab Officer.

Position: **Senior Lab Officer**
Full-time, based in Hanoi
Report to: Lab Manager

Position Summary:

The incumbent of this position is responsible for assisting Lab Manager in coordinating, supervising, controlling, and assuring the quality of laboratory process, research specimen storage and transportation of all laboratories related to UNC's studies, and assisting in on-site monitoring the implementation of research activities at the UNC's study sites in Vietnam.

Duties & Responsibilities:

- Assisting the laboratory manager to coordinate all preparation activities of the study-related laboratories to ensure these laboratories being compliance with Good Clinical Laboratory Practices Standards (GCLP) requirements from DAIDS prior the study activation.
- Planning and coordinating all preventive maintenance, calibration, and repairs for all laboratory equipment of UNC's studies.
- Responsibility for importation of samples and test kits as well as exportation study samples of the studies abroad.
- Managing data of UNC's studies on the web LDMS consisting of specimen entry, storage, shipping, resolve LDMS discrepancies as well as monitoring and supervising data entry at study sites
- Managing other lab data of UNC's studies on the study database and lab own systems related to lab quality management.
- Planning, coordinating, and reporting CQMP activities regularly.
- Ensuring all required documents of the studies are filed properly and sufficiently in soft copy on server and in paper.

The University
of North Carolina
